

2016-17 Erskine School Improvement Plan on a Page

Each adult at Erskine Elementary:

- Will use a variety of instructional strategies to actively engage and motivate students within all content areas.
- Will use a myriad of data to set high expectations for all and acquire 21st Century skills.
- Will provide a quality education by setting high expectations, reflecting on learning, communicating clear learning targets, and providing ongoing feedback.
- Will continually learn and reflect best practice in order to guide students to achieve their full potential.
- Will provide an environment of collaborative culture, a safe, caring, nurturing learning atmosphere that respects and appreciates each child's uniqueness.

Assessment for Learning: Providing Structured Feedback and Targeted Support

As a result of our work, students at Erskine will:

- Show increased proficiency and growth on multiple academic measures. By receiving structured feedback students will be supported in knowing how to grow their skills.
- Strengthen self-regulation skills and increase their engagement in the classroom.
- Gain skills that promote a positive learning culture at Erskine.

To reach our goal, the adults at Erskine will:

- Participate in on-going conversations around disaggregated academic data.
- Examine SEB data to develop student supports.
- Continue to grow in their professional learning around strategies to support students and create a positive building climate.
- Participate in professional learning to expand their skills of providing specific feedback and a growth
