<p><u>Plus</u> (What did you like about this meeting?)</p>	<p><u>Delta</u> (What could we have done to improve this meeting?)</p>
<p>Good information for background. Good conversation about purpose and process.</p>	<p>- much confusion on how the process will work, and concern about standardizing process to ensure fairness. - We may need to have some practice on scoring at the first meeting where we look at proposals. (Inter-rater reliability) - You may want to translate the visioning statements into questions for scoring. e.g.: Does the proposal: - "include different ways for learners to gain, demonstrate and share their learning?"</p>
<p>- You may want to think about having schools prioritize their proposals and allow each school to submit their highest priority in the first round. - Alternative question: How does this project improve student learning, performance or achievement? - Describe how this project: - Addresses the needs of students, parents, teachers and community members in your attendance area.</p>	<p>- You may want to align your application with the criteria in the four categories. e.g.: Describe how your proposal aligns with the criteria for students. - parents - teachers - community</p>

please address 10/16

How will the results be used by:
 1) CRSD staff, and;
 2) CRSD Board.

~~Will~~ Will facility appraisal be used in relation to the results of the steering committee?

(What did you like about this meeting?)

Opportunity to offer suggestions regarding intended process

Delta

(What could we have done to improve this meeting?)

Consider how to handle projects that are visionary/appropriate across district, not just consider building by building request

Plus
(What did you like about this meeting?)

Group discussion of group questions
hearing others speak so we
start to learn perspectives

Delta
(What could we have done to improve this meeting?)

Got to real motivation
for framing schools making
proposals. Yes Em a
cynic.
